

**YORBA LINDA WATER DISTRICT
DIRECTOR**

MICHAEL J. BEVERAGE

AGE: 56

OCCUPATION: Yorba Linda Businessman

Dear Neighbors,

I've been honored to serve as your Director at the Yorba Linda Water District for 12 years. We've worked hard to keep the District's finances sound. Our water rate is one of the lowest in Orange County. My goal of conservative stewardship of public funds has provided an efficient organization that delivers quality water and sewer services our families can rely on.

At the end of my last term, I promised that the District would broaden its efforts to keep our customers informed about District activities and important water issues. We've achieved this through new facility tours, community events, newspaper articles, revised District literature and an expanded web site.

Steadfast in my belief that the District should remain independent, I will continue to vigorously oppose any attempt by the Cities we serve to assume control of the District or the Legislature in Sacramento from stealing our reserves and your tax dollars to balance their budget. Our "financial reserves" and your "water rates" will be better protected by leaving the District intact.

I ask for your vote to keep working for you and to continue the good work of your Yorba Linda Water District. Thank you for your consideration.
